Mark Ian

Full Stack Developer | Project Lead

Metro Manila

Summary

Experienced System Developer with a strong foundation in Laravel, PHP, JavaScript, MySQL, Bootstrap. I have a keen interest in designing, developing, and optimizing software solutions to enhance efficiency and user experience.

My skills include:

- ✓ Backend and frontend development
- ✓ Database management
- ✓ System automation and System Deployment
- ✓ Troubleshooting and debugging

I am always eager to learn new technologies and enhance my skills to build innovative and efficient systems. Excited to contribute to dynamic projects and continue growing as a developer.
